

Project Title: AtlaS.WH – Heritage in the Atlantic Area: sustainability of the Urban World Heritage Sites

Programme: INTERREG Atlantic Area

Coordinator: Municipality of Porto

Municipality of Florence: Partner

Reference Unit: UNESCO Office

Budget: € 1.822.665,00

Status: in progress

Submitted: 2016

Opening date: 01/01/2017

Closing date: 31/12/2019

Partnerships: Municipality of Porto, Municipality of Florence, Bordeaux Métropole, Edinburgh World Heritage, Consorcio de la Ciudad de Santiago de Compostela

Objectives and activities:

The project intends to create a network of UNESCO World Heritage Sites Cities to address the common problems and challenges associated with the protection and promotion of their cultural identity, improving the management of cultural assets in order to stimulate cultural and economic development of the cities.

The main result to be achieved is the development of a Sustainability Plan for each World Heritage Site through the implementation of an integrated and participatory management and monitoring model that arises from the international exchange of know-how and best practices.
