

**Project Title:** QUADMAP (QUiet Areas Definition and Management in Actions Plans)

**Programme:** Life+

**Coordinator:** Università di Firenze, Dipartimento di Meccanica e Tecnologie industriali (University of Florence, Department of Mechanical and Industrial Technologies, Italy)

**Municipality of Florence:** Partner

**Reference Unit:** Department of Environment

**Budget:** € 2.369.262,00

**Status:** Completed

**Opening date:** 01/09/2011

**Closing date:** 31/09/2014

**Submitted:** 2011

**Partnerships:** Municipality of Florence, Unifi, Società VIE.EN.RO.SE, Tecnalìa (Italy), Bruitparif (France), Dcmr Epa Environmental Protection Agency (The Netherlands), Ayuntamiento de Bilbao (Spain)

**Objectives and activities:** The main goal of this project was to develop a shared method for the selection, management, quantitative and qualitative evaluation of urban quiet areas (QAs). A harmonized approach allowed for the implementation of a new monitoring tool and to monitor the management for quality of the European countries based on common key indicators (Qas.)
